Statement of Scope

Customer Support System

Problem Description

Kids JukeBox USA knows that in order to remain competitive with personalized CD's for children, they must have a working webpage that allows users to order available merchandise. Specifically, there must be a user friendly website in order for the users to search easily and to order their product with a reliable database. Also, the variety of product and customized systems should be considered for the customer. We need to create a system which lets the user choose from a variety of different CD's with a variety of names to insert into each CD. This system also needs to allow the customer to input their personal information so that shipping and billing is possible. Therefore a working, user friendly, web page needs to be edited, and a working database needs to be created and coded into the web page.

Anticipated Business Benefits

The primary long-term business benefit to be obtained from the new system is for Kids JukeBox USA to gain business through accurate and timely cost analysis and adjustment. Additionally, this system will help the company better assist their customers with an easy to understand order form that inputs their information along with what products they wish to purchase. Some of the shorter term goals and benefits which will combine to accomplish the long-term goals are:

- Provide accurate inventory data
- Allow customers to browse through the product information and order the product with ease.

System Capabilities

- Simultaneous multiple user access across a LAN
- 100% data reliability
- Ability for users to purchase products using a web based database.
- View a Bill of Materials for any given product
- Provide an interface where users can experiment with financial parameters (without changing the quantities/costs/prices in inventory)
- Print reports to include: Bill of Materials, Reverse Bill of Material and Margin Analysis

Project Charter

Project Name: Kids JukeBox USA Web Page and Database

Project Purpose: Kids JukeBox USA knows that in order to remain competitive with personalized CD's for children, they must have a working webpage that allows users to order available merchandise. Specifically, there must be a user friendly website in order for the users to search easily and to order their product with a reliable database. Also, the variety of product and customized systems should be considered for the customer. I will create a system which lets the user choose from a variety of different CD's, storybooks, etc., with a variety of names to insert into each CD. This system will also allow input of the customer's personal information so that shipping and billing is possible.

Project Goals: To provide real-time accurate inventory data and to allow customers to build\customize a computer cheaper and faster than our competitors.

Anticipated Completion: Within 8 months of project initiation

Participant	Position	Primary Responsibilities
David Scarborough	Owner of Kids JukeBox USA	To critique and advise the projects progress
Aleisha Vrooman	Programmer and Designer	To design and program the working database based on the needs of David Scarborough

Aleisha,

Thank you very much for emailing me. Yes, I would be very interested
 in meeting you and helping you with your class project as you help me with
 mine. I sell personalized children's CD's and storybooks and I would
 like to do it on line. Here are some competitors selling some of the same
 type of material and their web sites.

www.kidsjukeboxinc.com

www.kidmusic.com

www.kustomkid.net

www.custom4kids.com

I also have a Jukebox name Mystro. He is our magical jukebox that
 creates the specials songs for the children. My Business Name is JukeBox Music
 for kids.

I really like the site at kidmusic.com and the way it is presented. I
 also like the JukeBox singing and putting out the names and notes in
 kidsjukeboxinc.com.

I am free to me you at your convenience. Here are my numbers Home

Aleisha,

I know college students are very busy and to add work really takes a lot of time. I am free to meet you at your convenience anytime. If you would like to come to the school that would be great and not a problem. I would prefer not to tie up my weekend but if that is your only time then that would be ok as well. I can meet you anytime during the day when you have some free time before, between or after classes. I think 20 to 40 minutes would be enough time to get you going, and then we can work the majority of the project via emails and telephone.

Please give me a call and we can set something up

Dear Mr. Scarborough,

Thank you for responding to me quickly. I have been trying to figure out when would be the best time for us to meet with each other in order to work on our project. I am normally busy with work and classes during the week, however, I am available on weekends freely. This weekend I will be out of town, but if next Saturday, January 24 is alright with you, then I would like to meet with you then. If it is not convenient for you at this time, please let me know and I will try to make other arrangements. Thank you for your interest in helping me and for considering me to help you with your project. I look forward to meeting with you to discuss it. I hope that you have a wonderful day and God Bless.

Sincerely,
Aleisha Vrooman

1. Scarborough,

I took a look at your current design of your
webpage and it looks pretty good for the most part.
Over the next week I am hoping to have some time to
redo your current layout to what you asked for me to
do with it. If you would, please send me the graphics
you wish for me to place on your page so I can get
starting on designing it for you. Thanks for all your
time, effort, and patience with me. I hope that I do a
great job for you. I will let you know how my progress
is coming as I work on your page for you. If you have
any comments, suggestions, or questions please email
me with them. I hope you have a wonderful evening.

Sincerely,
Aleisha Vrooman

Hey David,

Sorry I haven't talked to you in a while about our webpage. I have been so busy with holiday's, birthdays, school, and work that I haven't had much own time. I have been working on your page a little, mostly going through on paper to make a good design for your main page before I do any coding. I'm hoping before the end of this coming weekend to have actual working images and design in coding so that you can view the new updates I have been working on. I'm sorry I don't have anything for you to see at this very moment, but like I said, I am hoping to have some of it done before the end of this coming weekend. If you have any questions, please email me and let me know. Have a good evening.

Sincerely,
Aleisha

bject: Rough Draft of Webpage

Dear Mr. Scarborough,

I wanted to let you know that I have finally put
up the first page of your new webpage. I haven't had
time to make any of the links work, so all I have done
is the main page that the viewer will first see. It is
viewed right now to be 800x600, so if you view it on
that resolution, it will look better. I will later
make it to where you have an opening page so that the
viewer can decide whether they would rather view it at
800x600 or a bigger size. Please take a look at it and
let me know what you think so far. The address is
<http://www.peachyperfect.com/kidsjukeboxusa/index.html>

Sincerely,

Aleisha Vrooman

Hey David,

I wanted to let you know that I had to cut the music file you sent me down into just a little piece. For some reason it wouldn't let me upload it as a MP3 file and I had to change it to a wav file. Doing this made the file huge and I'm only allowed to upload a max of 5 MB each upload. So I needed to cut it down in order to upload it and use it on the page. If you view the page now the little piece should play in the background over and over. Let me know what you think. I hope this is alright. no things, I tried opening it in explorer and it worked, however, it took a long time to load. When I open it in Netscape it does not load the music.

see you have it on a loop saying the same thing over and over. What we need to do to get an MP3 file of the entire songs. I also must load immediately. We may have to use flash for that.

Hey David,

I'm not sure what is going on. Everytime I go to the page the music works. Now, I don't have it playing on the main opening page...so you might need to click on one of the links (either 800x600 or the other) to hear the music. If it doesn't work on those pages, please let me know. Also, would you like me to place it on the opening page? If so, that's just fine and not a problem. Hope it works.

Hey David,

I viewed your webpage and it looks terrific. I'm just curious as to if you still need my help and if I am still able to use you for my senior project now that you have a page up and running. I will be happy to help you make any changes or edits on the page, but I wasn't sure if I would still be able to use you for my senior project or if I needed to find something else? I figured that my senior project would involve me actually designing and customizing your webpage for you, but now that you have one up I'm not sure what you are still looking for. So if you could just let me know something concerning this issue I would greatly appreciate it. Even if I will not longer be helping you for my senior project, I will still be more than happy to assist you on your webpage to help make any changes you may need in the future. Thanks for your patience and time.

ubject: Update on webpage

avid,

I am currently working on building a model diagram
of the fields and tables that I will be coding in your
atabase for your webpage. Hopefully by next week
sometime I will have it available for you to take a
ook at in order to let me know if this will suit your
needs, if there is something you want to add, or
omething you think you might not need. Thanks for
our patience, and I promise I am working hard on
reating this for you so I can get it done for you as
oon as possible. We might want to have another
eeting sometime next week in order to discuss the
odel I am currently creating on this database, so
lease let me know some times that we could possibly
eet and I'll let you know what will also work for me.

Hi Aleisha,

Here are the two flash files for the web site. Open them and play with them and let me know what you think. Also, the StoryBook CD's are \$24.95 each.

Here are two different sizes of the same demo.

Please note that Flash 6.0 needs to be installed on the server to play.

Hey David,

I'm not going to be able to meet you on Tuesday because I am at work at Zaxby's from 11:30 until 8 that night. I am free on Monday after 1 until 3 if you could possibly do that or on Thursday between 11 and 12:30. I have a lab at 12:30 on Thursday so it will have to be between those times. The only other time that I would be able to meet is on Wednesday between 11 - 12:30 or from 1:30 until 3. Just let me know from these times what is best for you. Also, I am able to load the pages on my computer so I'll let you know what I can do with it when we can meet again.

Thanks,
Aleisha

Hey David,

Thanks for emailing me that information. I will try to get those prices changed along with the music. At the moment it will not let me go in and edit anything, therefore I am waiting for the server to come back up on it. I will keep checking periodically and it will get done as soon as it comes back up for me to be able to change it. Thanks for your patience and with meeting with me today. I will let you know when the first availability is for me to come to your house to check out your products.

Hey David,

As I told you on Monday, I have not been able to get into the file manager in order to re upload the site back onto the server. It keeps telling me that the page I am searching for does not exists. I have no problem with changing the site for you, I just can not get into the file manager on aplus.com in order to upload the new page. I will keep trying and hopefully this afternoon it will be up and working for me. I have no problem getting into your account, but as soon as I click on any of the options, (file manager, front page manager, SQL manager, etc..) it keeps going to a "page not found" site and I can't figure out why. I will keep trying every second I get for you. Sorry for the delay on it.

Hey David,

I finally got into the server and have posted the prices on the music cd's and storybook cd. Let me know if it looks okay to you. Also, I have realized that your page is not set up for frames, it actually just opens a brand new page each time overlapping itself. It's not a problem, just something I was realizing while messing with the site. I haven't added the new music yet, but hopefully later this evening when I get off work I can do that for you. Sorry for the wait.

Hey David,

I'm not exactly sure what you mean? Do you want me to list the prices where the pictures are as well, or what exactly do you mean by being on the back page of the music CD's and not on the front page. I think I'm just a little confused. So if you could explain this then I'll be sure to fix it for you.

Hi Aleisha,

I was just looking at the site and noticed that you can not place an order for either music or storybook CD's from the page that you view them on. Instead you have to go to an order page which is very sterile and not very informative. We need a link to order each CD from it's respective page where we get all the information on each CD. What do you think?

Hey David,

Just to let you know that I think that is a great idea. We can have both, in case the user already knows what they want to order than can go straight to the order page and if they are browsing they can order from that location. I will work on that this week and hopefully have it ready before this weekend. Also, take a look at the page and tell me if I have fixed the problem with the prices for you or not. I think I have, but just want to be sure. If I haven't please let me know so I can take another look at it for you. Within the next few weeks I am hoping to have the database at least partially designed for you to take a look at it. It just takes a little while for it.

Hi Aleisha,

Lets meet on the phone. That way each of use can have our web sites open and talking the pages. The order form works great.

Thanks

David

Subject: Webpage meeting

Hey David,

I'm still in the process of putting a model database together for you, it just takes a while for me to get together all the necessary information. However it should be done soon. I also put the order forms with the cds, please let me know what you think of that. As for meeting, I seem to be pretty busy during the week, but if you would like to meet during the week, the only time I can would possibly be on Wednesday either 11-12:30 or 1:30 - 3. Otherwise, would saturday afternoon or Sunday afternoon be okay with you? We could do it on the phone as well if meeting wouldn't work, but it would be after 8 at night that I would be home to be on the phone if that would be okay with you? Just let me know from the information I gave you what would be best for you. Thanks for your patience and your help.

Aleisha

Subject: Webpage Updates

Hey David,

I just wanted to let you know that I have currently composed a list of the songs, so that on the FAQ page viewers can click on the link (where How Songs are Recorded) to view all available songs, listen to them, have a list of names, and order form. I hope this works for you. I have also added a few other things to the FAQ page that you asked me to do. As of right now I am working on having the list of songs and names open in the same window and having the order form and list of kids names on each list of songs. It just takes a while to get that done, but I am currently working on it. I hope to have it done by the end of this week, along with a few other things you asked me to do. Also, included in this email is a copy of the ERD (working database and tables) for your database. I'm not sure how much you know about ERD, but I thought I would at least send it to you and if we have another phone conversation soon then we can just discuss it over the phone. If you have any other suggestions, questions, or comments, please email me and let me know. Thanks for your patience and understanding with this project.

Aleisha

PS: If you cannot open the file I attached, let me know and I will put it on word.

Subject: Meta Tags

Hey David,

I told you that I know how to do these meta tags, and I do. But I have noticed a problem. You're registered domain name www.kjbusa.com is not apart of where I can manipulate the html code for your webpage. This domain name will not allow me to go into the code to add the meta tags to it. However, I have added them to the main index of kidsjukeboxusa.aplus.net where all your other pages are located. I have searched for Kids JukeBox USA and found the site located now, so if you think this works, please let me know, otherwise we will have to figure out how I can update the actual domain webpage (www.kjbusa.com). Also, I am still in the process of finishing some other requests, so when we meet on Monday, I should have them done (or at least most of them) and I will bring a copy of the ERD with me to show you about the database.

Aleisha,

I need to talk to you asap about my Meta tags. Can you change them?
For
some reason we do not have any on my site and we need to get them in
there
asap. Please call me at home tonight.

David,

I think you just need to refresh your computer. The new links that I added are shown up as red font. If you would like me to change that to another color, or make it white (which I wouldn't recommend), then please let me know what color you would like to change it to if you do not like the red. It automatically made it red when I programmed the links in, but I do know how to change the color. So the changes are affected on my computer, so I believe you just need to refresh your computer. It might help if you clean up any old temporary internet files to clear your cache and have more room for updated material. If you still do not see the changes, please let me know.

goof morning,

I just got off the site and I see a couple of problems. The photos of the new CD is not formatted correctly, they look like they are laying on there sides. I think they need to be stretched up a little. Second the link to the shopping care needs to have their own info. At present if you go to order it orders one of the other cd's. On the photo for the Easter bunny cd there is no link for kids names. Also the link that brings you to the next set of CD's is reversed on the second page. The next link should be to the right of the previous link.

Hey David,

Thanks for sending me those files. I am trying to get them all up for you by the end of the evening, but it doesn't look like I will be able to because I did not get off work until late. However, I do not have to work tomorrow so after my classes in the morning I will be working on your page to have your requests made on Monday completed for you. Also, I can not seem to find those files for your other two storybooks, if you could resend them and add descriptions for them in an email as well, that would be wonderful and I will add them immediately after receiving your email. Thanks for your patience and help.

Subject: New CDs and Storybooks in Database

Hey David,

I finally got all the songs situated and I know why it isn't ordering the correct CD and I fixed the problem. However, the new CD's that you gave me to put on your site along with the new storybooks are not apart of your database and therefore need to be added in order for the customer to order the correct product. I don't know how to get into the database that is at present available in order to add this product. Would your prefer me to call the company and have them add the products, or do you think you would rather do it. Please let me know something, as for now I have them linked but they will not work until they are entered into the database.

Thanks,
Aleisha

Subject: New CD

Hey David,

Thank you for sending me the storybooks, I will post them asap. Also, the problem with the new CD's and the reason they look the way they do is because I do not have their description in order to fill the space. Once I have put their descriptions on the page, the images of the CD's will not look so weird. I will try my best to have everything up for you by the end of the evening. If there are any other questions, comments, or concerns, then please let me know. I will be checking my email regularly. Thanks again for sending that information for me. And if you can get me the descriptions for the new CD's then I'll get that information up asap as well.

Thanks,
Aleisha

Hi Aleisha,

Yes, things do look great. There are some small fixes and the shopping cart is not working for all the products. My Neptune voyage is missed name My Pet Dino, I would also like to get the other story books from MYCD in there as well. I sent them to you some time back with the picture and flash. I am getting ready for school and if you could meet me after class with your computer that would be great. Call my cell at 12:20

Hey David,

I am really sorry I have not given you a phone call recently. You have to understand that sometimes my other classes tend to give me a lot of homework and tests to study for. Along with my classes, tests, and homework, I have recently had computer problems with both of my computers and had to restart them both from scratch. So I am still working on installing programs that I need to be able to work on your webpage along with my school work. However, I will try my best to give you a call tomorrow evening. I will not be able to do so tonight because I have previous plans, but I will be able to call you tomorrow. Also, I am free to meet Saturday afternoon or Sunday with you unless meeting next Monday at 1 would be better for you. Please let me know from those three days which would work for you best. Thanks for your patience.

Hi Aleisha,

Can you please add the following links to my links page.

www.4thefuture.net

4 The Future is a charitable organization started by Tara Scarborough (a senior at the Univ of South Florida in Tampa, Fl) to help schools in need. Tara works with the schools to determine their unfunded requirements for anything from volunteers to computer equipment and more. She then finds ways to fulfill these needs through charitable donations. She works in the Tampa/St Petersburg area of Florida.

<http://www.betterfoodchoices.com/>
This website gives you simple solutions to feeding your kids higher performance foods and drinks that they will like. It includes excerpts from the book, Are Your Kids Running on Empty? plus customized food consultation options for your son and/or daughter. Explore this website for answers on how to better fuel your kids.

Hi Aleisha,

We will have to use this email for a week or so. My email hosting company was located in the fire that happen across from CSU yesterday so use dscar@sc.rr.com.

All the changes to the web site look great. Thanks for all your help

David

Hi Aleisha,

The order for the MYCD Storybooks should be The Fairy, The Farm, The Train, Monsters, Red Planet, Turnip. That's is how they sell. Yes they need to be included in the order form, but there is a problem because they need to have additional information. We may have to put a link with my cell phone so that I can take the order over the phone. Lets see if we can work this out over the phone. Please call me tonight at your convenience. Or if you can meet me at school some time this week that would be great.

David

Hey David,

I am so sorry that I have not contacted you recently about your website. I seem to have accomplished most the requests that you had for the site thus far, except for the My CD Storybook page. I need to know if you want me to also include these items on the order form and what prices do you want me to include for them? Also, is there any particular order you wish for me to list these items in? I am not sure if I will personally be able to meet with you or talk to you on the phone until later this week, however, I will be checking my email often and was curious if we could just email back and forth for now? If this will not work, I will try my best to come up with a good time to meet with you or I can just call you later this week. Please let me know what you would like to do. Thanks for your patience and understanding.

Hey David,

I'm sorry I have not replied to this email before now, but I recently heard of bad news from my mother. After recent news of her illness, I may not be able to get with you until the end of this week. I'm sorry for this inconvenience. In the mean time I will work on this list of MYCD Storybooks page for you and on your Database. Please let me know if there is anything else I can do for you until our next meeting.

Thanks,
Aleisha

Hey David,

Just to let you know a little about what is going on in my life at the moment is I found out that my mom has cancer on her chest from a mole and will be having surgery this friday to remove all the cancer. I am so sorry that I have not been working on your website, however this will all change today. As soon as I get home from school today I will work on those updates with the text you recently sent me and along with that I will be working on getting your MYCDStorybook page up with links. Let me know how you want to work the ordering. You said something about just calling you to order those. I need to know the price of them to place on the page and a little write up about each of the products. If you want me to add them to your inventory and the order form that I way I can do that as well, just let me know what you decided to do about that situation. Again, I am sorry for the delays and will start working again ASAP.

Sincerely,
Aleisha

Hi Aleisha,

Here is the info for all the MYCD storybooks, I have also been on the site and I don't see any changes in the text?

The Fairy is a story of a greatest wish fulfilled. If you ever yearned to find a fairy at the bottom of the garden, this is the story for you. Sometimes things long wished for turn out to be less than expected, but sometimes they are even better! Click >HERE< for more info.

A Day at the Farm takes a group of children out to visit a real working farm. This is a hands-on experience where they feed baby calves with giant baby bottles, pet the goats, ride in a hay wagon, and collect smooth eggs from the chicken house. Click >HERE< for more info.

Too Many Monsters is the story of what happens if you are having too much fun inventing an even scarier monster every single day of the week! Where do all the monsters go? Monsterland, of course! Click >HERE< for more info.

The Red Planet starts on a quiet day in the back garden-and skyrockets to an adventure on a mysterious red planet! The children are so excited when their rocket ship takes them to the stars! Click >HERE< for more info.

My Train Adventure is about a long wished for ride on a steam engine. Finally, the day arrives and the journey begins. Soon, remarkable events start to happen; a scary bridge, a tree across the tracks, and, best of all, a ride in the driver's cab! Click >HERE< for more info.

The Giant Turnip starts when Grandad suggests a group of bored friends

grow
vegetables in the summer holidays. But one of the friends visits the
library
to find a book on growing vegetables -and finds instead a book of magic
spells. Click >HERE< for more info.

Please use the following additional info for the MYCD, we also need to add the flash plugin to make sure everyone can view the flash samples. I have given you a sample text for this purpose. We also need to include it with the other storybooks

Welcome to MYCDUSA

MYCDUSA have produced a wonderful range of personalised interactive story books on PC CD-ROM where your child is the Star of the adventure.

Unique to MYCDUSA the stories grow with the child. Giving three levels of story, each CD develops the learning ability of the child and is packed with interactive fun and animation.

Each CD story book contains the child's full name, age, home-town, two friends names, an adult, a two-line dedication and the name of the giver; Making this a truly personalised product!

Our CD StoryBooks from MYCDUSA offer a Truly Personalised story on CD-ROM.

Each CD contains the child's full name of any spelling you choose- not limited by a database.

Their age and home-town are featured.

Two named friends appear, building the friendship aspect of the story.

Choose an adult to appear in the story, promoting child safety.

All details appear throughout the story, making this a truly personal adventure for your child.

CDs also feature a welcome screen showing a personal message from the giver, including their name.

Each story has fully interactive animated pages.

There are three difficulty levels to each story, allowing the story to grow with your child.

Also extra educational puzzles and games promote fun and learning!

To view the sample animations on our website you will need to have the Flash browser plugin. Please go >HERE< to make sure you have the latest version from Macromedia® Please note that this link wil open in a new browser window.

> Also, I did not receive a copy of the Train.swf flash
> file to post on the page, so if you could please send
> me a copy of that file I would appreciate it.

I don't have the train at the moment so we will have to get it later. I have given you a couple of clipart that I think would be good for the section

One last
> thing, I need to know what price you are selling the
> My CD Storybooks at so

They sell for \$24.95

that I can post them on the
> page and the order form. I will attach a link from the
> Order Now button that will go to a page to let the
> user know to call you if they wish to purchase a My CD
> Storybook. Do you want me to add this to miva's
> database?

Yes, they can still pay for it either through the web or over the phone

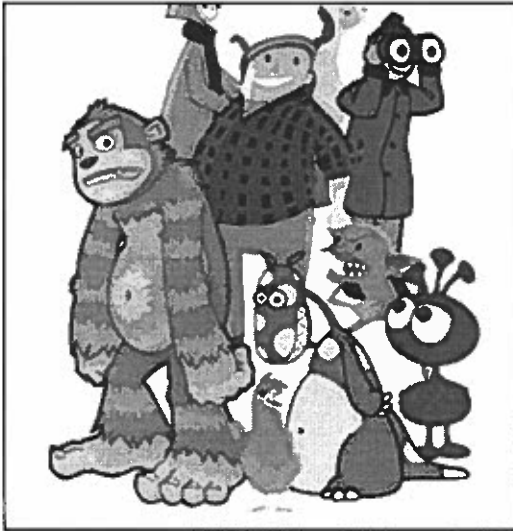

I'm sorry I was not able to call you last
> night, and nor tonight, I will be working til very
> late, I just wanted to email you quickly to ask a few
> questions. If you could let me know if there is
> anything else, I'll be happy to do and I will find
> time this weekend to give you a call.

Yes, there are a couple of things that I would like to update but lets talk about them because it is eaiser to explain

David

Again, I am
> sorry I haven't found the time now, but I promise I
> will this weekend. Thanks for all your patience and

Dear David,

I am sorry I have not returned your phone call made last Thursday. I have been in Columbia on an internship for two weeks and will be returning home to Charleston on Friday afternoon. I do apologize for not letting you know of my leaving, however I will have the MY CD Storybook page up for you by the end of this weekend. I am really sorry I have not finished getting that working for you. Exams and my mom's surgery have kept me incredibly busy up to this point. I have been work on the page for you, so I should definitely have it finished by Saturday evening at the latest and will be giving you a call on Saturday sometime to get with you about additional changes to the site. If there is anything I can do for you in the meantime, please email me and let me know. I am not able to check my phone because of minutes here on my cell phone, but I will be able to check my email everyday. I hope you and your family are doing well, and I hope that you are having a great Christmas break. I will be talking with you this weekend. Have a wonderful week as well.

Sincerely,
Aleisha

Hi Aleisha,

I have been to the site and it looks great. There are a couple of things that need to be changed. On the Storybook CD's the last two paragraphs can be deleted. Those two were combined into the first paragraph that is there. Also the customized link needs a new color or bigger or something to stand out more.

For the MYCD's we need to ensure that when they order they get to the page just like the others that allow them to put in their information. We also do not need the names list as we can put in any persons name.

There are a couple of other things that need doing so I will make a list and meet you on Tue at 5 in the library.

David

Hi Alleisha,

Have you had a chance to get to the MYCD downloads? Here is some of the info we spoke about:

Hi Aleisha,

Sorry for taking so long to get back with the info you requested but here it is:

1. KeyWords:

"kids Music, personalized cds, personalized music cd, custom music cds, personalized childrens music, personalized songs for kids, personalized music for kids, childrens christian music, Child's Gift, Child's Songs, personalized child's books, kids Books, kids storybooks, personalized children's gifts

2. Intro for the second page CD's

Kids JukeBox USA is a company that's all about producing high-quality personalized children's products. Our "Kids Personalized Music CDs" are written and composed by professionally awarded musicians. You will be amazed

how much your child will enjoy singing and dancing to these fun songs containing their name. Professional vocalists have sung every single name.

The music on each of our "Kids Personalized Music CD's" is a mix of tempos

teaching your child rhyme and verse. They are a fun way to teach children

speech and music. The CDs build your child's self esteem through the affirming lyrics.

Each CD is personalized with your child's name throughout the lyrics. To

further personalize the CD, your child's name is printed on the CD label,

together with a three-line message of your choosing. You can create a birthday message, Christmas message or something as simple as "You're So

Special" on each CD label. Our "Kids Personalized Music CDs" are great gift

ideas for sons and daughters, grandchildren, nieces, nephews and your friends' children.

3. Intro for MyCD StoryBooks

I am still working on this one as I think I want to change and just have one storybook link to avoid confusion and explain the differences on the page just as we have done with the CD's

4.I have also attached the Easter Pic

5. We need to have the tray cards with each name on the Kids Name Link.
Also when someone selects the Kids Names link from the CD page it should take them to the page with the actual kids names not the Kids Names Page.

Lets set a time to meet over the phone and go over some more things.

Have a great day
David

To: David A. Scarborough
Subject: New updates

Hey David,

Thanks for sending me a list of things. I'm hoping that I got a lot accomplished for you today working on the list we made at our last meeting. I will soon begin to work on the MYCD StoryBook Page where the flash files open to actual pages. This shouldn't take too long, but it won't happen in a day. Also I need to know a few things:

1. Do you have a list of kids names for MYCD StoryBook?

There is no list of names, we can put any child's name in the story

2. Do you have a list of kids names for each of the following Music CD's:

For the Love of Animals

Happy Birthday

Magical Journey

In Search of the Easter Bunny

Santa and Me

All 5 of these CD are for the Happy Kids selection and are all the same, they will be linked to the page for Happy Kids

If you do have list of songs names please let me know...if not, let me know what you want me to do about getting them linked to a particular page instead of having them link to "Kids Names" Page.

Also, you mentioned in the previous email about wanting to put tray cards with each name on the "Kids Names" Page...Do you want me to put the picture of each CD by the link? Yes And if this is the case...what do you want me to do about the list above of kids names I do not have? You have all the names. Under Happy Kids you will put all 5 CD's. As of right now I will be busy all weekend with working and my wedding, but do you think we could talk on the phone after my class on Tuesday? Sure My class ends around 3:30..so will you be around to talk on the phone at 4:00 on Tuesday. 4 will be finelf you need this time to be later, I can do as late as you need after 4:00. If this is not a good day, please let me know and I can let you know what other days I am available. Thanks for your help.

Subject: Our Phone Meeting

Hey David,

I wanted to apologize for not calling you today at 4:00 like we had discussed. I had an emergency I needed to attend to. My fiance's mother had surgery today, which I was not aware of until a few days ago. I do apologize for not letting you know in advance that I would not be able to call you. However, I do have Thursday afternoon free as well, if 4:00 on Thursday is a good time for you. Again, I'm really sorry and look forward to talking with you soon.

Hi Aleisha,

The site is looking great. Here are the fixes for the things we talked about.

1. Home page needs to say "We are committed" instead of "folks who" on the 9
2. We need a "previous link" on the second StoryBook page so we can go back
3. Change the StoryBook customized message to the following: <- Click on the
4. Change the first StoryBook page (8th line down) to read the following: * The th
5. Change the second StoryBook page to read the following: (The
 - * ANY child's name... no matter how unusual!
 - * Their age and hometown name
 - * Two of their friends... personalized with ANY names
 - * Your choice of an adult character
 - * Fully interactive, animated pages
 - * An inviting welcome screen with a personalized message from the giver
 - * Multi level puzzles and memory games
 - * Printable scenes for printing and coloring

Why are these features so important to your child? They promote wholesome

- * Joy of sharing adventures with friends
- * Value of adult characters who teach important safety lessons
- * Gift of self-paced learning... Watch as your child gains confidence as they ad

- * Meaning of just plain FUN! They'll have a ball with our added puzzles and me
- * Important part they play in so many lives... There is no better way to help but surrounded by the people and places they love!
- * Development of hand-eye coordination... soon they'll be pros at sliding and cli

Hi Aleisha,

Two more things, when you click on the Fairy CD it opens and there is a long squiggly music note that does not belong. Second, you can see the top of the squirrels head in the animated picture

Thanks

David

Hi Aleisha,

I have not looked at the whole site yet but I just wanted to let you know there is a problem on the home page. The bottom of the page info now sits in the middle of the page?

David

Hey David,

I wanted to let you know that I have taken care of the changes you emailed me a few days ago. Also, in working with the database I fixed the attributes that you wished for the Music CD's, StoryBook CD's, and MYCD StoryBooks. Please go to the order form and click on each of the order buttons to see these changes. If they do not work, or if you need something added or changed, please let me know...otherwise I believe things are working how you need them to now. Please let me know of any additional edits or changes to the database, or to the site.

Thanks,
Aleisha

Hi Aleisha,

I have gone through the whole site and it is looking great. Fantastic job. Here are a couple of small things I have found. Under kids Names you have some of the names in the middle of the tray card and most of them at the top of the tray cards. I think it looks best in the middle. Second, you have the kids names for the storybooks but no tray card. Why don't you just put the tray card for the Dino there and it will look great.

I will go through the site tomorrow page by page to see if there are any other changes. I will also do a check on the database which is wonderful/

Thanks

David

Subject: Phone Calls

Hey David,

I'm sorry I haven't returned your phone calls, I have been incredibly busy finishing some "paperwork" on my Senior Project to turn in before Wednesday and then I had mid-terms today..so I have been so busy studying for them. I did get your message on your daughter's webpage. I'm not sure if the question on how to link a power-point document to a webpage was answered or not. All you need to do is upload the document to the ftp server that she is using and then link it by stating the location of the document/powerpointdocument.ppt ; so basically instead of the file ending in htm or html it will end in ppt which indicates it as a power-point document. If you have any other questions, please let me know.

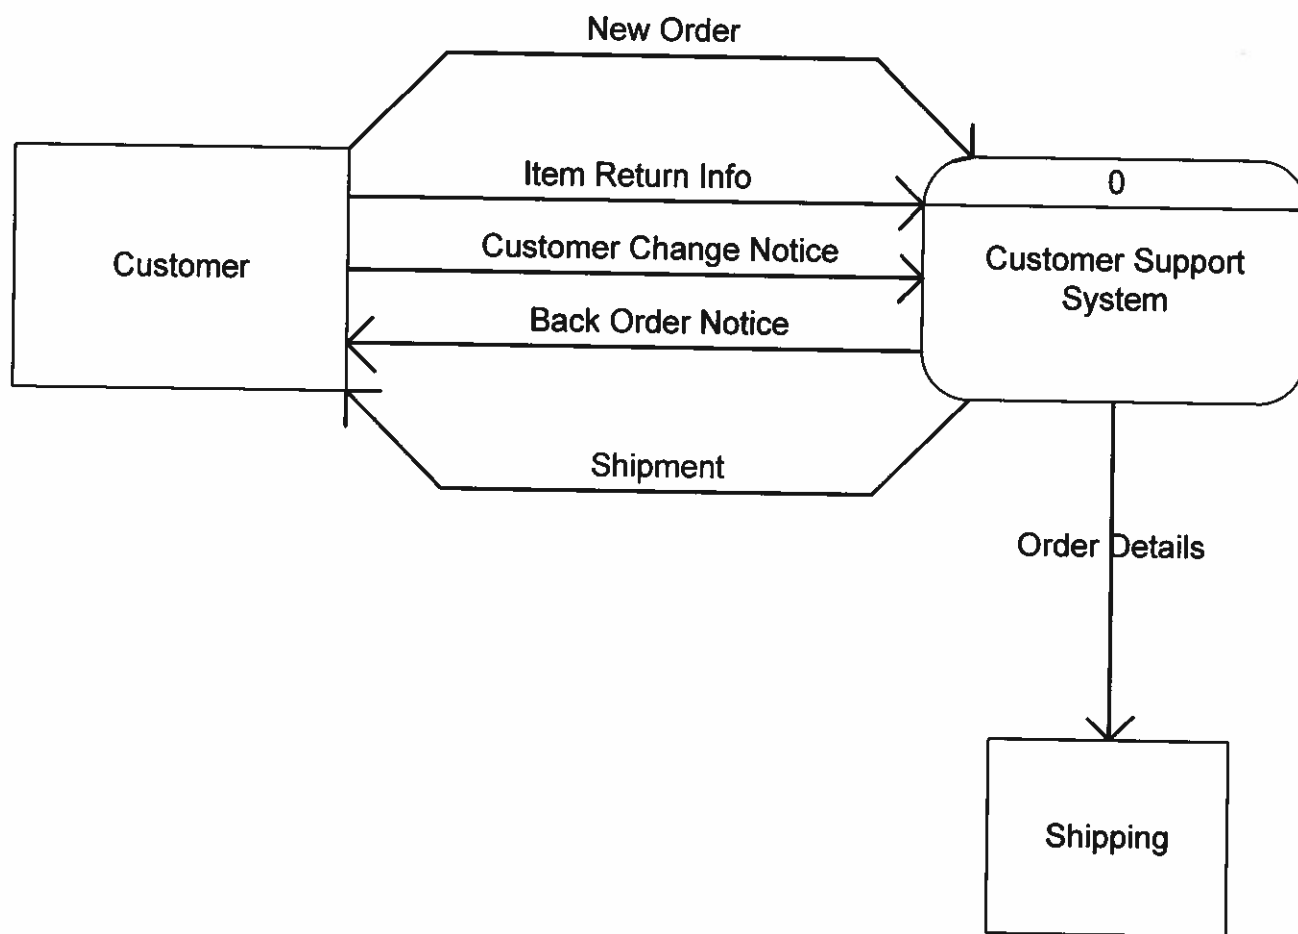

Aleisha

Kids JukeBox USA

Designed by: Aleisha Vrooman
Class of 2005

Kids JukeBox USA

My topic is to create a working web page for David Scarborough that will incorporate a working database for customer information and order forms.

At the present moment there is a web page designed, but my goals are to edit this working site to be more user friendly, and design a database for Mr. Scarborough to be able to access for his personal business rather than relying on the software through internet companies.

In order for me to complete my project I will need to be able to edit the site, add a search tool for customers, and design and code in the database for his order form and customer information. I feel that I will be able to complete my goals by Spring of 2005.

Statement of Scope and Charter

Problem Description: Kids JukeBox USA knows that in order to remain competitive with personalized CD's for children, they must have a working webpage that allows users to order available merchandise. Specifically, there must be a user friendly website in order for the users to search easily and to order their product with a reliable database. Also, the variety of product and customized systems should be considered for the customer. We need to create a system which lets the user choose from a variety of different CD's with a variety of names to insert into each CD. This system also needs to allow the customer to input their personal information so that shipping and billing is possible. Therefore a working, user friendly, web page needs to be edited, and a working database needs to be created and coded into the web page.

Statement of Scope and Charter

Anticipated Business Benefits: The primary long-term business benefit to be obtained from the new system is for Kids JukeBox USA to gain business through accurate and timely cost analysis and adjustment. Additionally, this system will help the company better assist their customers with an easy to understand order form that inputs their information along with what products they wish to purchase. Some of the shorter term goals and benefits which will combine to accomplish the long-term goals are:

- Provide accurate inventory data
- Allow customers to browse through the product information and order the product with ease.

Database Details

Here is the list of different tables and what each requires.

Music

1. Child's Name How they want it spelled on the label
2. How the child's name sounds phonetically
3. Special Message/Greeting two lines for example Happy 2nd Birthday Love Mom and Dad

Database Details

StoryBook

1. Child's First Name
2. Child's Last Name
3. How the child's name sounds phonetically
4. Special Message/Greeting two lines (same as above)
5. Child's Gender
6. Child's Race
7. Child's Eye color
8. Child's Hair color
9. Parent's Race
10. Parent's Eye color
11. Parent's Hair color

Database Details

MYCDStoryBook

1. First Name
2. Middle Name
3. Last Name
4. Nick Name (to be printed throughout the story if different from above)
5. Name spelled phonetically
6. Hometown
7. Age
8. Gender
9. 1st friend
10. 2nd friend
11. Choose one of the following, Mom, Dad, other
12. Who Gift is from ex Persons the CD is from
13. Dedication ex just for you, Happy Birthday
14. Date gift is given ex April 4, 2004

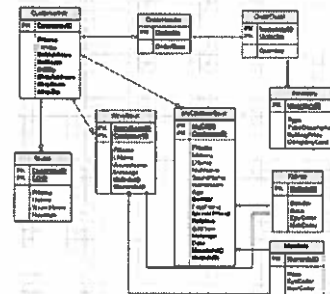

ERD Revised Descriptions

- The CustomerInfo table relates one to many with the OrderHeader, MyCDStoryBook, StoryBook, and Music tables. It includes a primary key of the CustID number. This table is where the key information about the customer is stored.
- The Music table relates many to one with the CustomerInfo table. It includes a primary key made up of the CustID and InventoryID. This table is where information on the child's name and an optional message from the parent is stored.
- The StoryBook table relates many to one with the CustomerInfo table. It includes a primary key made up of the CustID and InventoryID. This table is where the child's name and information about them is stored. The parent's information is also stored in this table.

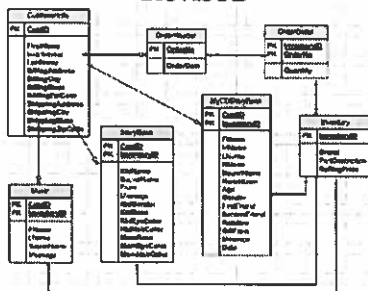

ERD Descriptions (cont)

- The MyCDStoryBook table relates many to one with the CustomerInfo table. It contains a primary key made up of CustID and InventoryID. This table contains detailed information on the child in order to create a personalized storybook.
- The OrderHeader table relates many to one with CustomerInfo table and one to one with the OrderDetail table. It contains a primary key of OrderNo. This table stores the order and the date of the order.
- The OrderDetail table relates one to one with the OrderHeader table and one to many with the Inventory table. This table takes the OrderNo and the InventoryID to create a primary key from these two foreign keys. This table stores the quantity of a particular item from a particular order.
- The Inventory table relates many to one with the OrderDetail table, and relates one to many with the Music, StoryBook, and MyCDStoryBook tables. It includes a primary key of InventoryID. This table contains each item and the description of the items listed for sale.

System Context Diagram

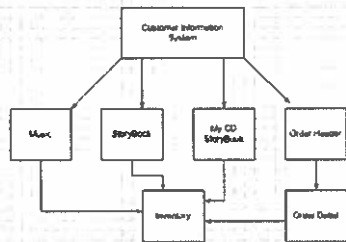

This diagram shows how the customer input information relates back to the support system in order to relay a message about the order back to the customer or directly to shipping to ship the item off.

Structure Chart

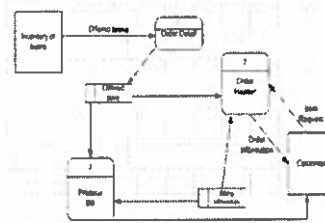

This chart shows a breakdown and structural diagram of the tables in the database. It shows that the Customer Information is the center of the design with each key table listed under it with the tables that are connected to each listed below them. This is my original design of the database, on the next slide you will see the revised edition of this chart.

Structure Chart Revised

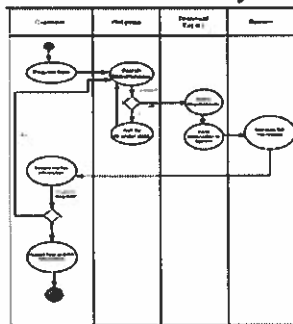

Data Flow Diagram

This diagram shows the flow system of how the customer information relates to the inventory table in order to produce a bill for the customer. The information goes from the Inventory table through the OrderHeader table to the OrderDetail table where the order information is sent to produce a bill and the bill is then sent to the customer.

Activity Diagram

This diagram shows how the system checks the requirements in order to produce a bill. If anything happens with the information that is incorrect, the system goes back to recheck the information. Finally, the system accepts the item and the bill information.

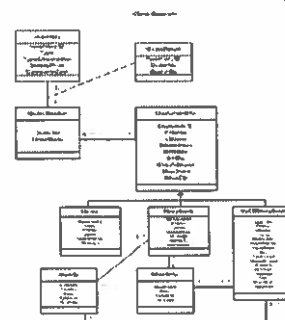

Complete Event Table

Complete Event Table					
Event	Trigger	Source	Activity/Use Case	Response	Destination
C customer places an order	New Order	C customer	Create new order	Order Confirmation Order Details	C customer Shipping
C customer changes or cancels order	Order change request	C customer	Update order	Change confirmation Order change details	C customer Shipping
Time to produce order summary reports	"Bill of stock, month, quarter, and year"		Produce order summary reports	Order summary reports	Management
Check order status	Order status inquiry	C customer or Management	Look up order status	Transaction summary reports	Accounting
Shipping holds order	Order fulfillment notice	Shipping	Record order fulfillment		
Shipping identifies act order	Back-order notice	Shipping	Record back order	Back-order notification	C customer
C customer updates account information	C customer account update request	C customer	Update customer account		
Marketing wants to send a newsletter	Monthly Bill Details	Marketing	Distribute newsletter	Newsletter	C customer or Management

Complete Event Table

This table describes the activities that occur when each event occurs. The source tells where the event started and from there the event causes the activity/use case to occur causing a response from the system sending it to the destination specified.

Class Diagram

This diagram illustrates the flow of the database system along with their relationships towards each other.

Webpage

Webpage Updates

This semester has been busy with all the webpage edits and updates constantly changing. I have added numerous pages to the webpage, for example:

- Adding a new page for My CD StoryBooks
- Adding new inventory and changing the line-up of all the inventory
- Changing the wording of certain information listed on the main page, charity page, and the faq page

I am always making changes to the site directed by David, the owner of the page. I am currently fixing a few other edit problems and also finishing the database for his webpage.

Webpage Updates

Here is a list of the different requests to update this webpage:

- Compiled one page with a list of songs to listen to & away to order these songs from this page.
- Create a page to list MyCD StoryBook products.
- Update each Music CD with its complete list of songs that the user can preview.
- Created a new order form button, and links listed on the main page, and a customization button for theStoryBook CD's.
- Make a newsletter form for users to subscribe to a monthly newsletter.
- Create font colors to make it easier to read by the user.
- Created a page to include all the list of songs from each Music CD on one page to make it easier for the user to preview the songs

Finishing Touches

I was able to upload the database to the working webpage. After numerous emails and meetings, David is satisfied with the outcome of his database and webpage. He can now use each product individually, which wasn't possible with his old database that the server provided him.

We have discussed ways to keep his site up to date. I have reviewed with him numerous ways to update things on his webpage himself, and let him know that I will help him in the future if he needs my assistance.

Questions/Comments

At this moment I will take any questions or comments about this presentation and project.
