Notes on Physical Database Schema

- 1) The Schema is implemented with the Data Definition Language, SQL.
- 2) The DBMS used for the Physical Database Schema is Oracle.
- 3) All primary keys have key, domain and referential integrity.
- 4) The rules for deletion of tables are given near the tables in the Schema.

They denote:

- a) No restriction: D:N
- b) Delete Cascade: D:C
- c) Delete Restrict: D:R
- d) Delete: Set Null: D:SN

MILESTONE 11

SUBMISSION CHECKLIST AND COVER SHEET

DATE: November 24, 1997
TO : Dr. Linda Behrens
FROM: TEAM MEMBERS WASHINGTON, ANGELA
RAGHURAMAN, ANANTH

We are submitting the following milestone for your evaluation

Milestone 11 checklist:

- [] We are resubmitting our System Profile from Milestone 2.
 - [] We are submitting our data flow diagrams (from Milestone 5) that contains the inputs and outputs that we designed. We circled those inputs and outputs appearing on the data flow diagram to indicate which inputs and outputs we designed.
 - [X] We are submitting expanded project repository entries for each input and output we designed.
 - [X] We are submitting source documents, Input Record Layout Charts, and output designs of edit reports for batch inputs. We are also including a memo that describes the error messages that may occur and under what conditions they are to be printed.
 - [X] We are submitting sketches or samples of source document, inputs, and outputs.
 - [X] Our input and output specifications are accompanied by a brief explanation of the rationale behind our input design decisions.
 - [X] We are submitting one or more Printer Spacing Charts for each hardcopy output.
 - [X] We are submitting the following additional documentation:
-

We have carefully checked our input specification for the following:

- [X] The name of each of our inputs coincide with the name we used on the data flow diagram and project repository.
- [X] Our source documents are simple for users to complete. Our source documents include instructions for completing the form and minimize the amount of handwriting required. The source document is designed such that data to be entered (keyed) is sequenced so it can be read top to bottom and left to right. Input data is not mixed with data that is not to be entered by the user.
- [X] Our requirement state that only variable data is to be input.
- [X] We did not allow data that could be calculated or stored in computer programs to be input.
- [X] We used codes for appropriate attributes.
- [X] We have established internal controls to monitor the number of inputs and to ensure that the input data is valid.
- [X] We studied the nature of the inputs and have selected the best methods and media for the inputs.
- [X] We are including a description of timing and volume of each inputs.
- [X] For each input attribute, we specified the character type, its size, how it is to appear, and the editing or validation requirements.

We have carefully checked our output specification for the Following:

- [X] The name or title of each of our outputs coincide with the names or title we used on the data flow diagrams and project repository. We also included aliases for those outputs that users commonly refer to by different names.
- [X] Our outputs are simple for users to read and interpret.

- [X] We specified the exact time that each output is to be generated to ensure that recipients will receive information while it is still pertinent to their decisions.
 - [X] We specified all of the users that are to receive the outputs.
 - [X] We designed outputs that will be acceptable (useful) to the recipients.
 - [X] We studied the nature of the outputs and selected the best media and format for presenting the information.
 - [X] We installed appropriate internal controls to ensure that outputs will be protected against accidental and intentional error.
 - [X] For reports, we identified the number of copies to be generated, and the copying method to be used. We also specified the number of pages that should be generated for a single copy of the report.
 - [X] For each attribute that appears on an output, we specified the character type, its size, how it should appear on the output, and where the value of the attribute comes from.
 - [X] We included special design instructions where appropriate (e.g. folding instructions, mailing instructions, color requirements for form copies, size, etc.).
 - [X] The Printer Spacing Charts of printed outputs that should appear on preprinted forms include carriage control entries, perforation marks, a boundary to indicate the size of the form, folding instructions, and other special instructions.
 - [X] Special comments to the instructor: _____
-

To be completed by the instructor:

I have reviewed Milestone 11. My evaluation follows:

- [] Milestone returned ungraded because of _____
- [X] Milestone acceptable as submitted. Grade of 40
recorded in students' record.

- [] Milestone acceptable as submitted; however, it needs to be corrected and resubmitted to establish a permanent grade.
- [] Milestone **NOT** acceptable as submitted. Grade of _____ recorded in students' record.
- [] Milestone **NOT** acceptable as submitted because _____

Resubmit by date of _____ to establish a permanent grade.

Registration Form

Current Telephone Number:	MAJOR
Address Update:	MINOR
	An official declaration of change of Major / Minor must be made in the Office of Academic Advising.

[illegible]

(Cannot exceed 18 without approval)
(Financial Aid may be adjusted if less than 12 hours)

WHITE - Registrar
GREEN - VA Office
YELLOW - Business Office
PINK - Student
GOLD - Advisor

CRT ENTRY _____ DATE _____

Expanded Project Repository Entries for Outputs

Page 1

TYPE: STUDENT REPORT

EXPLODES TO: REPORT ON COURSE DROP (page 2)

REPORT ON COURSE ADD (page 3)

INFORMATION RETRIEVAL (page 4)

DESCRIPTION: THIS REPORT IS GENERATED WHEN THE STUDENT ATTEMPTS TO ADD OR DROP COURSES OR WHEN HE/SHE GETS INFORMATION ON AVAILABLE COURSES.

MEDIUM: PHONE INTERFACE

OUTPUT

CHARACTERISTICS: IT IS A DATA FLOW FROM THE COURSE ADDITION, COURSE DROP AND INFORMATION SUBSYSTEMS. AS TO INFORMATION RETRIEVAL, THE STUDENT CAN ACCESS READ-ONLY INFORMATION CONCERNING AVAILABLE COURSES AND HIS/HER OWN RECORDS. THE REPORT IS VOCAL, COMMUNICATED BY A RECORDED VOICE.

OUTPUT

COMPOSITION: COURSE NUMBERS

REASONS FOR SUCCESS IN ATTEMPT OR LACK OF IT

TYPE: REPORT ON COURSE DROP

DESCRIPTION: THIS REPORT IS GENERATED WHEN THE STUDENT ATTEMPTS TO DROP COURSES. IT TELLS THE STUDENT WHETHER A COURSE WAS DROPPED OR NOT AND THE REASONS FOR NOT DROPPING A COURSE.

MEDIUM: PHONE INTERFACE

OUTPUT

CHARACTERISTICS: THIS DATA FLOWS FROM COURSE DROP SUBSYSTEM TO STUDENT. REPORTS ARE IN THE FORM OF A RECORDED VOICE WHICH IS GENERATED IN THE COMPUTER CENTER OF THE UNIVERSITY. REPORTS OCCURS WITH EVERY INSTANCE WHERE A STUDENT TRIES TO DROP A COURSE.

OUTPUT

COMPOSITION: COURSE NUMBERS OF COURSES DROPPED
REASONS FOR NOT DROPPING A COURSE

TYPE: REPORT ON COURSE ADD

DESCRIPTION: THIS REPORT IS GENERATED WHEN A STUDENT
ATTEMPTS TO ADD COURSES. IT TELLS THE
STUDENT WHETHER A COURSE WAS ADDED OR NOT
AND THE REASONS FOR NOT ADDING A COURSE.

MEDIUM: PHONE INTERFACE

OUTPUT

CHARACTERISTICS: THIS DATA FLOWS FROM COURSE ADDTION
SUBSYSTEM TO STUDENT. THE REPORTS ARE IN THE
FORM OF A RECORDED VOICE THAT'S GENERATED IN
THE COMPUTER CENTER OF THE UNIVERSITY WHICH
OCCURS WITH EVERY INSTANCE A STUDENT
ATTEMPTS TO ADD A COURSE.

OUTPUT

COMPOSITION: COURSE NUMBERS
REASONS FOR ADDING/NOT ADDING A COURSE

TYPE: INFORMATION RETRIEVAL

EXPLODES TO: READ-AND-WRITE INFORMATION REPORT (page 5)

READ-ONLY INFORMATION REPORT (page 6)

MEDIUM: PHONE INTERFACE AND COMPUTER TERMINALS

OUTPUT

CHARACTERISTICS: IT IS A DATA FLOW FROM INFORMATION RETRIEVAL SUBSYSTEM TO THE STUDENT. IT IS GENERATED IN THE FORM OF A RECORDED VOICE, IN CASE A STUDENT IS USING A PHONE AND COMPUTER SCREEN IN CASE A UNIVERSITY AUTHORITY IS USING A TERMINAL.

OUTPUT

COMPOSITION: COURSE NUMBERS OF AVAILABLE COURSES,

COURSE NUMBERS OF UPDATED COURSES,

SOCIAL SECURITY NUMBERS OF STUDENTS WHOSE RECORD HAS BEEN UPDATED.

TYPE: READ-AND-WRITE INFORMATION

EXPLODES TO: DETAIL REPORT (page 7)

SUMMARY REPORT (page 8)

EXCEPTION REPORT (page 9)

MEDIUM: COMPUTER TERMINAL

OUTPUT

CHARACTERISTICS: THIS DATA FLOWS FROM THE INFORMATION RETRIEVAL SUBSYSTEM TO STUDENT. THE REPORTS ARE IN THE FORM OF COMPUTER SCREENS THAT IS GENERATED IN THE COMPUTER CENTER. THE REPORT OCCURS WITH EVERY INSTANCE IN WHICH A UNIVERSITY AUTHORITY ATTEMPTS TO RETRIEVE REPORTS OR STUDENT RECORDS.

OUTPUT

COMPOSITION: STUDENT RECORDS

TYPE: READ-ONLY-INFORMATION REPORT

DESCRIPTION: THIS REPORT IS GENERATED WHEN A STUDENT
ACCESSES THE SYSTEM TO GET INFORMATION. IT
GIVES HIM/HER THE LIST OF AVAILABLE COURSES,
INFORMATION ON HIS/HER OWN RECORDS.

MEDIUM: PHONE INTERFACE

OUTPUT

CHARACTERISTICS: THIS DATA FLOWS FROM INFORMATION RETRIEVAL
SUBSYSTEM TO THE STUDENT. THE REPORTS ARE
IN THE FORM OF A RECORDED VOICE. THE REPORTS
ARE GENERATED IN THE COMPUTER CENTER OF THE
UNIVERSITY, AND IT OCCURS WITH EVERY
INSTANCE WHERE A STUDENT ACCESS THE SYSTEM
TO RETRIEVE INFORMATION.

OUTPUT

COMPOSITION: COURSE NUMBERS OF AVAILABLE COURSES,
INFORMATION ON HIS/HER OWN RECORD.

TYPE: DETAIL REPORT

DESCRIPTION: THIS REPORT GIVES THE UNIVERSITY AUTHORITY,
REGISTRATION INFORMATION ON ALL STUDENTS AND
COURSES.

MEDIUM: COMPUTER TERMINAL

OUTPUT

CHARACTERISTIC: THIS DATA FLOW FROM INFORMATION RETRIEVAL
SUBSYSTEM TO STUDENT. DETAIL REPORT IS IN
THE FORM OF COMPUTER SCREEN THAT IS
GENERATED IN THE COMPUTER CENTER.

OUTPUT

COMPOSITION: STUDENT RECORDS
COURSE LIST, PREREQUISITE LIST

TYPE: SUMMARY REPORT

DESCRIPTION: THIS REPORT SUMMARIZES THE REGISTRATION INFORMATION OF EACH STUDENT AND GIVES ONLY HIS/HER MAJOR, CREDITS EARNED, GPA AND TUITION STATUS (WHETHER THE STUDENT PAID HIS/HER TUITION OR NOT) .

MEDIUM: COMPUTER TERMINAL

OUTPUT

CHARACTERISTICS: IT IS A DATA FLOW FROM INFORMATION RETRIEVAL SUBSYSTEM TO UNIVERSITY AUTHORITY. IT IS IN THE FORM OF COMPUTER SCREENS.

OUTPUT

COMPOSITION: STUDENT RECORDS

Expanded Project Repository Entries for Inputs

TYPE:	PIN
DESCRIPTION:	IT IS A NUMBER GIVEN TO A STUDENT WHICH UNIQUELY IDENTIFIES A USER AS WELL AS DECIDES WHAT TYPE OF INFORMATION HE/SHE MAY ACCESS.
MEDIUM:	PHONE INTERFACE/COMPUTER TERMINAL
INPUT	
CHARACTERISTICS:	IT IS A DATA FLOW FROM THE STUDENT TO THE REGISTRATION SYSTEM.
INPUT	
COMPOSITION:	FOUR-DIGIT ALPHA-NUMERIC STRING

TYPE: EXCEPTION REPORT

DESCRIPTION: DEPENDING UPON THE CRITERIA, THIS GIVES ALL
THE STUDENT RECORDS WHICH SATISFY THE
CRITERIA.

MEDIUM: COMPUTER TERMINAL

OUTPUT

CHARACTERISTICS: IT IS A DATA FLOW FROM INFORMATION RETRIEVAL
SUBSYSTEM TO UNIVERSITY AUTHORITY. IT IS
GENERATED IN THE COMPUTER CENTER.

OUTPUT

COMPOSITION: STUDENT RECORDS

Project Repository Entries for Inputs(cont...)

TYPE: COURSE NUMBER

DESCRIPTION: A COURSE CHARACTEIRZED BY ITS COURSE NUMBER
AND THE ACTUAL INPUT IS THE COURSE NUMBER.
THE COURSE NUMBER UNIQUELY IDENTIFIES A
COURSE. IT IS INPUT WHEN THE USER WANTS
DETAILS OF A COURSE.

MEDIUM: PHONE INTERFACE/COMPUTER TERMINAL

INPUT

CHARACTERISTICS: COURSE NUMBER IS A DATA FLOW FROM THE USER
TO THE INFORMATION RETRIEVAL SUBSYSTEM OF
THE REGISTRATION SYSTEM. A USER CAN SEARCH
FOR DETAILS OF A COURSE USING THE TWO DIGIT
COURSE NUMBER.

INPUT COMPOSITION: TWO DIGIT NUMBER

TYPE: COURSE NUMBER, SECTION NUMBER

DESCRIPTION: IT IS A NUMERIC STRING WHICH UNIQUELY
IDENTIFIES A COURSE. THE USER CAN SEARCH FOR
THE DETAILS OF A COURSE USING THE COURSE
NUMBER. SEARCHING USING THE COURSE NUMBER
GIVES DETAILS OF ALL SECTIONS OF THE COURSE

INPUT

COMPOSITION: 2 DIGIT NUMERIC STRING

TYPE: SECTION NUMBER

DESCRIPTION: IT IS A NUMERIC STRING WHICH WHEN COMBINED
WITH COURSE NUMBER, UNIQUELY IDENTIFIES A
SECTION OF A COURSE.

Brief Narrative of Terminal Report Chart for Exception Report on Students

This terminal display chart gives an exception report on students. This report filters data before they are presented to the manager as information. This report reports only the student that has exception to some condition or standard; an example of an exception report is an report that list all information about a student that owe a balance on their tuition, or the student may be on probation due to grades or their behavior at the university.

Brief Narrative Of Terminal Display Chart for Summary Report On Scheduled Courses

This terminal display chart gives a summary of scheduled courses. It doesn't include all the details of the course; only the attributes that the user has requested. In the case of this chart, the attributes are Course Number, Section Number, Course Title/Name, Start Time and End Time.

Brief Narrative Of Terminal Display Chart for Summary Report On Students

The Terminal Display Chart shows a brief summary of students' names, their PINs, social security numbers, whether they were graduates or undergraduates (Student Type) and total number of credits each has earned.

[illegible]

Brief Narrative Of Terminal Display Chart for Detailed Report On Courses

This chart gives all the details of courses. It gives the Course Number, Course Name/Title, Number of Credits that can be earned and the Number of the department that offers the course. Please note that it doesn't give the details of the sections and the particulars. For that, we would have to search for Scheduled Courses.

Input Screen of Main Menu for University Authorities

The screenshot shows a graphical user interface window titled "University Authority Main Menu". The window has a standard Windows-style title bar with minimize, maximize, and close buttons. The main content area is light gray and contains the following elements:

- A centered instruction: "Choose from the following options".
- Two radio button options:
 - ☐ Update Student Records
 - ☐ Update Course Records
- Two buttons at the bottom, each enclosed in a rectangular frame:
 - A button labeled "Enter" on the left.
 - A button labeled "Cancel" on the right.

Input Screen of Second Menu for University Authorities

The screenshot shows a window titled "Student Records - Menu 2" with a standard Windows-style title bar (minimize, maximize, close buttons). The window contains three radio button options, each preceded by a small circle icon:

- ☐ Exception Report on Students and Update
- ☐ Detailed Report on Students and Update
- ☐ Summary Report on Students and Update

At the bottom of the window, there are two rectangular buttons: "Enter" on the left and "Cancel" on the right.

Input Screen of Third Menu for University Authorities

Course Records - Menu 3

- ☐ Exception Report on Courses and Update
- ☐ Detailed Report on Courses and Update
- ☐ Summary Report on Courses and Update
